DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: In the "Brief Description of the Drawings" the figures should be listed separately.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 22 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 22, the use of the recitation "adapted to" renders the claim indefinite. It has been held that the recitation that an element is "adapted to" perform a function is not a positive limitation but only requires the ability to so perform. It does not constitute a limitation in any patentable sense. *In re Hutchinson*, 69 USPQ 138.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Art Unit: 3722

5. Claims 1, 2, 5-8, 11-14, 17, 18, 22 and 28 are rejected under 35 U.S.C. 102(a) as being anticipated by Hechinger et al. (6,029,883).

Hechinger et al. disclose a postal product (envelope having a stamp) comprising a first image area having postal indicia; inherently, a second image area having an image; a protective coating (46) covering the second image area such that a cancellation mark placed over the second area will not permanently adhere to the image.

Note: The use of postcards having postal indicia is well-known in the art.

Note: In claim 13, a separate label has not been positively claimed.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 3, 4, 9, 10, 15, 16, 19-21, 29 and 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hechinger et al..

Hechinger et al. discloses the claimed invention except for the particular material as claimed for the protective coating. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide whatever material desired, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of design choice. *In re Leshin*, 125 USPQ 416.

Art Unit: 3722

Regarding claims 19-21, it would have been an obvious matter of design choice to one having ordinary skill in the art to use any printer to print the postal product based on the desired results of the user.

Response to Arguments

8. Applicant's arguments with respect to claims 1-22 and 28-30 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Dunn (3,830,422) discloses a package for special postal issues and Birkholz et al. (5,663,227) discloses a release agent for postage stamps.
